

Aquarius newsletter

No. AN02

News about:
Aquarius - Romania - world - etc. - etc.

Dear divers,

Till now was 2007 a fantastic year for Aquarius there were a lot of activities and changes in a positive way. In this newsletter we will inform you about this and much more. Have fun and let it be an inspiration for this fantastic thing what we call... Diving!

Aquarius moved to another location

In the month June we moved to a new location, 65meters form the sea opposite Casino building and 950 meters from our boat. We have now a separated store - class room - space for the school materials and maintenance and repair department. This combination is unique in Romania but normal for a dive center standard.

Projects

Begin 2007 we found in the Constanta area a new wreck.she was first called Regina wreck but in time we gave here here true identity back. " Vishva Shanti "

Projects for this winter period are:

- Arkadia
- R36
- Airplane wreck
- 2 wrecks at Tuzla area
- Destroyer Moscva
- Multi Trader

We hear from you if you wanne join...

2 new charts on our website

The last month we put 2 new charts

Cambodian ship wreck

26 July 07 sunk the Cambodian cargo ship Multi Trader near Mangalia. The crew was saved by the coast guard. 2 days later we were asked by the Harbor master from Constanta to investigate this wreck about oil pollution - wreck position etc etc. In the next coming months we will put this wreck in our list for wreckdiving.

Tomis yacht 2007 exhibition

This exhibition was for us a good change to promote diving in all of here facets. Many people came to our stand to inform about dive possibilities in the Black sea but also outside the country. During the exhibition we got a request to write a article about wreck diving in the Black sea for Yacht Magazine. This article was a great success and there will follow more articles in the next coming magazines
